

TRADE TIME. ANYTIME.

Smart Crypto exchange and SocialFi platform

Listing and Marketing proposal Q1 2025 v1.0

WHAT WE DO?

SorooshX is a smart WEB3 crypto Exchange and SocialFi platform where the Master traders assist users by sharing their signals, Ideas, live trades, learning contents and more.

Spot Trading
Buy & Sell Bitcoin, Ethereum, and 1300+ tokens with deep liquidity & high performance.

Futures Trading
Seamless perpetual trading with up to 125X leverage, Hedge Mode, Multi-Assets , Cross & Isolated, and more.

Signals & Live Trades
Daily Crypto & Forex signals & live-trades by pro traders, evaluated with Soroosh AI Engine (SAE)

SocialFi & Mining
Mine SSE by sharing signals, learning, and engaging with top traders on SorooshX SocialFi(Ideas).

Crypto Prop
First Web3 crypto prop trading with pro tools & AI-powered evaluation.

P2P Trading
Professional P2P trading for Fiat-Crypto conversion with KYC system and zero-fee trading.

AI Agent
SorooshX AI Agent combines human insight with AI to optimize trades, manage risk, and send smart alerts.

DeFi and Lending
Liquidity mining: Earn rewards by engaging with the SocialFi community, Sharing signals, Learning contents and Ideas

WHY LIST ON SOROOSHX ?

- 1

Integrated Signal-Based Trading (Ideas Platform)
SorooshX features a powerful in-app trading community called Ideas, where verified traders share live trading signals. These signals are fully integrated with our exchange — users can copy a signal and instantly execute a trade. We will list your trading pair on **Ideas**, making it accessible to thousands of active traders.
- 2

Organic Trading Volume
Due to the deep integration between **Ideas** and the exchange, your token will benefit from organic trading volume — not artificial wash trading. Users trade based on signals, and we actively encourage engagement through featured campaigns and content.
- 3

Awareness-Driven Signal Support
We will support your token with **regular trading signals** to boost visibility. We can also request our **top-ranked traders** in Ideas to share strategies and signals specifically on your token to build momentum and trust.
- 4

Airdrop & Prize Pool Campaigns
We offer the option to launch **airdrop campaigns, prize pools, and trading competitions** tailored to drive engagement and volume for your token.
- 5

Educational Content & Community Exposure
We can produce **dedicated educational content** (such as posts and tutorials) explaining your project to our users. This helps build long-term interest and understanding.
- 6

Direct Push Notifications to 250,000+ Users
Upon listing, we will send out **push notifications to over 250,000 verified users**, announcing the listing and driving immediate traffic to your trading pair.
- 7

No Market Making or Locked Liquidity Required
SorooshX acts as a **liquidity aggregator**, so there's **no need for you to provide a separate liquidity pool or locked funds**. We do not require traditional market-making services, which reduces listing overhead and makes onboarding smoother for projects

GOLDEN OFFERS

\$1.5M
Volume

Prize Pool for The best Volume Traders
We will launch weekly trading campaigns with high performance and over \$1.5M in organic volume, featuring \$5,000 prize pools for traders. This is one of the best approaches for token projects to generate organic volume and attract new holders and genuine traders. (Free and NO extra fees).

\$500K
Volume

Launch an ROI Campaign for Your Token!
Offer a \$3,000 prize pool for top ROI performers. This campaign encourages signal sharing on our Social Trading platform, boosts awareness and trust in your token, and ultimately increases trading volume organically. (Free and NO extra fees).

1M
Impression

Social Impression Campaigns for Max Exposure
Boost your token's visibility by launching social impression campaigns across CoinMarketCap (CMC), X (Twitter), and the SorooshX Social platform. These campaigns are designed to increase brand awareness, drive engagement, and attract new traders to your project. (\$2.5K prize pool)
